This includes spouse, family, friends, courts, attorneys, employers and law enforcement. However, there are exceptions to full confidentiality. The following are general exceptions to full confidentiality. You have been given a Privacy Notice that notifies you of specific confidentiality rules and how information about you may be disclosed.

- All Plains service providers are mandatory reporters of child abuse and dependent adult abuse, and a report to the Health and Human Service (HHS) will be made if such abuse is suspected.

- If a Plains service provider believes that a client is in danger of harming self or others, the Plains service provider will act to prevent harm from occurring. Those actions may include providing information about the consumer to others.

- The parent or legal guardian of a minor has the right to information about services that are provided to the minor, with the exception of substance abuse / use information, in most cases. Exceptions include cases where releasing information to a parent or legal guardian may cause harm to the minor child and/or it is in the best interest of the child not to release information.

- Limited information about a client who is diagnosed as having a chronic mental illness may be released to a spouse, parent, adult child or adult sibling if the disclosure is necessary to assist in the client's care or treatment, unless the client specifically restricts disclosure to a spouse or family member or if protected 42 CFR Part 2 information.

- Periodic reports will be made to the court about the status of clients who are court-ordered to receive services at Plains.

- Plains staff members must provide information that is required by a court order.

- On occasion, Plains providers consult with other mental health professionals. During those consultations, the client's identity is not revealed, and those consultants are legally bound to maintain confidentiality with respect to those consultations.

- During accreditation surveys or reviews, representatives of the Iowa Health and Human Service (HHS) may check consumer records for compliance with state standards. Those reviewers are required to keep all consumer information confidential.

- The confidentiality of substance use disorder client records and information is protected by HIPAA and the regulations on confidentiality of alcohol and drug abuse patient records, 42 CFR Part 2, which implement federal statutory provisions, 42 U.S.C. 290dd-3 applicable to alcohol abuse patient records, and 42 U.S.C. 290ee-3 applicable to drug abuse patient records. The confidentiality of problem gambling patient records and information is protected by HIPAA, Iowa Code Chapter 228 and Iowa Code Section 22.7(35).

- The Health Insurance Portability and Accountability Act of 1996 (“HIPAA”) is a law that protects the privacy and security of patient health information anywhere in the United States. In addition, there are other federal and state laws that protect “sensitive health information,” including information relating to HIV/AIDS; behavioral or mental health; developmental disabilities; treatment for substance (alcohol and/or drugs) use disorder; adult or child abuse or neglect; and genetic testing and counseling.

APPEAL/GRIEVANCE PROCEDURE

All clients who receive services from Plains have the right to express their concerns without fear of restraint, interference, coercion, discrimination, reprisal, or retaliatory action. This principle also applies to any person taking part in an appeal

representation, either as a witness or employee representative. Any client who feels that he/she has been subject to unfair treatment will have the right to an appeal.

It shall be the responsibility of Plains authorities to hear promptly and courteously all appeals registered in good faith by clients of services provided by Plains, and to clarify misunderstandings and make reasonable adjustments of complaints. All problems will be settled whenever possible at the lowest level. If you feel the issue is not resolved, you may follow the appeal process below.

The **appeal process** is as follows:

1. In the event of a disagreement between a consumer and Plains, the client should first attempt to discuss the issue directly with his or her service provider.

2. In the event the dispute is unable to be resolved, the client or service provider may present the nature of the dispute either verbally or in writing to the Executive Director of Plains within **five (5)** working days after the client's discussion with his or her service provider.

3. The Executive Director, within **five (5)**working days, shall then notify the service provider and client that the Executive Director is aware of the dispute.

4. Documentation shall be entered into the client record. Any correspondence generated from the dispute shall be filed in the clients record and be a permanent part of the record. The Director shall issue a decision within **five (5)** working days from the initial receipt of the dispute.

5. In the event the Director is unable to resolve the dispute, the Director shall so state in memo form to both parties within the **five (5)** period as stated above.

6. In the event the Director is off duty, the grievance shall be held until the Director's return.

7. The grieving party may then elect to present the dispute to the President of the Board of Directors.

8. If the client is presenting the complaint, the client must sign a release of information allowing Plains' clinical staff to discuss the case so that confidentiality is not breached, and the Board Member can understand the issue. If the client refuses to sign, the Executive Director's decision will be considered final. The President has **fifteen (15)** working days to respond to the complainant with a decision that shall be in writing.

9. In the event the release is signed, and the President of the Board is in receipt of the dispute, he or she may elect to resolve the decision (as above) or appoint a subcommittee of Board Members to review the dispute. A meeting must take place in **fifteen (15)** working days and decisions must be issued in **five (5)** working days from the date of the hearing in writing with a copy to the client and to Plains.

10. If the dispute is decided upon by either the President of the Board or a subcommittee of the Board, but is unsatisfactory to either party, the Full Board shall make a ruling on the matter at a regularly scheduled meeting in the form of a majority vote and the decision shall be considered final at that juncture.

11. Board members should inform any client of the grievance procedure in the event that a consumer accesses the Board directly, prior to following the grievance procedure. Plains staff will educate the client about his or her rights as it pertains to the grievance.

12. If the Board member wishes to discuss the case with staff of Plains, then, the Board Member (and Plains staff, as appropriate) shall have the client sign a release before any discussion takes place between a Plains staff and a member of the Board. The latter is included to protect the client's right to confidentiality.
    The purpose of including this provision is to avoid a full grievance if possible and attempt informal resolution of any

complaint or problem brought forth by a client of Plains.

I have read, reviewed and received a copy of the above information. I understand and agree to abide by the above information for all the services that I receive at Plains. My signature below attest to my review, understanding, and acceptance of the information outlined in this Consent to Services.

Psychiatric Advance Directives

1. **What is a Psychiatric Advance Directive (PAD)?**

   A Psychiatric Advance Directive (PAD) is a legal document allowing a person to direct their healthcare in the event that they become unable to make or communicate healthcare decisions, including mental healthcare.

2. **What are some of the benefits of having a PAD?**

   There are multiple benefits for having a PAD, such as giving additional legal support for your right to choose your own treatment. PADs also provide you with an opportunity to discuss planning and recovery with family, friends, and providers, gives providers who may not know you well information that will help them provide you with better care, allows you to give approval in advance for who can receive/release your medical information, and can put in place legal arrangements for the care of your children, finances, and pets at a time of crisis.

3. **Can I write a legally binding psychiatric advance directive (PAD) in the state of Iowa?**

   Yes, by appointing an agent. Iowa's Durable Power of Attorney for Health Care statute allows you to appoint an agent (called an "Attorney in fact") to make healthcare decisions for you if you become incompetent to make those decisions yourself. "Health care" may include mental health care. A recommended form for this purpose is called a Durable Power of Attorney. The form is not mandatory but is recommended.

4. **Before following my PAD, would my mental health care providers need a court to determine I am not competent to make a certain decision?**

   No. The statute does not specify any particular procedure by which your PAD goes into effect. In practice, your PAD will be followed whenever your providers consider that you are unable to understand or communicate treatment decisions yourself.

5. **Does the statute say anything about when my mental health providers may decline to follow my PAD?**

   Yes. Your provider could decline to follow the Attorney in fact's instructions in an emergency. An "emergency" includes a situation in which a person is considered a danger to him/herself or others.

If you would like more information or have questions please let your provider know.

Psychiatric Advance Directives

1. **What is a Psychiatric Advance Directive (PAD)?**

   A Psychiatric Advance Directive (PAD) is a legal document allowing a person to direct their healthcare in the event that they become unable to make or communicate healthcare decisions, including mental healthcare.

2. **What are some of the benefits of having a PAD?**

   There are multiple benefits for having a PAD, such as giving additional legal support for your right to choose your own treatment. PADs also provide you with an opportunity to discuss planning and recovery with family, friends, and providers, gives providers who may not know you well information that will help them provide you with better care, allows you to give approval in advance for who can receive/release your medical information, and can put in place legal arrangements for the care of your children, finances, and pets at a time of crisis.

3. **Can I write a legally binding psychiatric advance directive (PAD) in the state of Iowa?**

   Yes, by appointing an agent. Iowa's Durable Power of Attorney for Health Care statute allows you to appoint an agent (called an "Attorney in fact") to make healthcare decisions for you if you become incompetent to make those decisions yourself. "Health care" may include mental health care. A recommended form for this purpose is called a Durable Power of Attorney. The form is not mandatory but is recommended.

4. **Before following my PAD, would my mental health care providers need a court to determine I am not competent to make a certain decision?**

   No. The statute does not specify any particular procedure by which your PAD goes into effect. In practice, your PAD will be followed whenever your providers consider that you are unable to understand or communicate treatment decisions yourself.

5. **Does the statute say anything about when my mental health providers may decline to follow my PAD?**

   Yes. Your provider could decline to follow the Attorney in fact's instructions in an emergency. An "emergency" includes a situation in which a person is considered a danger to him/herself or others.

If you would like more information or have questions please let your provider know.
